* Extract from the Sanitary file 57-21 (1-15) regarding the extension of the Births & Deaths Registration Regulation III of 1918 & the framing of rules thereunder :—

1) "54. No rules have been issued under the above section (Section 8a). But the rules issued with G.O. No 6664-74/1 Sen 714-3 dated the 10th march 1916 relating to the registration of Vital Statistics are being adopted for the purpose of the registration of births & deaths at present. These will have to be revised under the above section with necessary modifications. These rules provide (vide rule 8) for the registration being placed before the Taluk Board for information & remarks. The return is first forwarded to the Amildar who is required to place it before the Taluk Board.

2) "55. After the extension of the Regulation the Deputy Commissioner & Presidents of District Boards may be requested to favour Govt with their views as to what extent the existing rules may be adopted & what modifications if any are required in them. The Sanitary Commissioner may also be consulted by the

Modifications if necessary in the rules of 1916 in regard to the registration of Kilal Stamps

1) The Opinion of the President of the Boards was called for in this office letter No L 592-9/San 57-21-16 & 23.7.1921 as to whether the above rules may be adopted & whether required any modifications.

2) The Presidents of the Boards of Mysore, Bangalore, Kolar, Chitaldrug, Shimoga & Tumkur, have written that the Boards are of opinion that no changes are required in the existing rules. The Board of Kadur have resolved as follows:—

"The rules do not require any modifications. All that is required is that they should be strictly enforced. The Board are of opinion that the form of the book requires a change. The books should be printed on best paper of uniform size the books well bound & the pages machine numbered."

4) The President, D.B.D., Hassan, has sent an elaborate report on the matter. The question had been referred to a sub Committee appointed by the D.B.D. and their recommendations were adopted by the D.B.D. in their meeting held on 3rd & 5th June 1925. The President's report embodies the suggestions of the Sub Committee's recommendations also has given his

P.D. Rules.

P.7.

P.8.

his own suggestions also in regard to the changes which are necessary in the forms now in use and in the rules of Reg A which are now in force. Among other matters he suggests that (a) the Births & Deaths Registration Regulation may be introduced into villages where literacy has made an advance;

(b) a statutory obligation may be enforced upon mirasdars about correct & timely submissions with provision for penalty in cases of default.

(c) Suitable provision may be made to bring erring village officials to book on the recommendations of the local boards & to increase pay in cases of good or heavy work; and

(d) these rules may be given statutory force by incorporating them as rules duly framed under the Local Boards or Village Panchayets Regulation or the Village Offices Regulation.

Subject for orders.

13) Called with the Sanitary Commr. file 57-21. In that the Sanitary commissioner was asked to state whether local bodies were under in dealing with the registration of vital statistics in rural areas. The Sanitary Commissioner brought that they could not deal with the work nor with the working of the Births & Deaths Registration Regulation. Information is not also available as to whether there are similar rules in British Indian states. The Sanitary commissioner has not been consulted in regard to the suitability or otherwise of the rules issued in 1886. May they perhaps be referred unofficially to the Sanitary Commissioner for opinion with reference to the opinions of the several district Boards received on the matter.

Submitted.

10/2/26 [illegible] 12/2 MV This file relates to the question of the rules re vital statistics under the Births & Deaths Registration Regulation. The Dt Boards were asked for their views & they have communicated them. The Sanitary Comr. may perhaps be unofficially consulted now.

22.3.26.

20/ The rules issued with Government Order No. 6664-714/San. 71-15-3 dated the 10th March 1916 have received unqualified acceptance from nearly every one of ~~District~~ Two Boards. The President of the District Board, Hassan, however, has submitted a very useful constructive criticism of the rules, a discussion of which will, I believe, serve to elucidate just to what extent they need amendment before they can be published under Section 20 of Regulation III of 1918.

21/ 2. First, as to the simplification of the forms, the Presidents suggests the omission of Column - 11, 12 and 13 in the form for births pertaining to the name, residence and signature of the informant. In this, I do not agree. Section 13 of the Regulation of births and deaths Act lays down that oral information given should be reduced to writing. This is indispensable to secure the legality of the births certificates and cannot

Confidential

NOTE— Contn. Sheet

therefore be done away with. When produced in a Court of Law, the authenticity of a birth certificate may be called into question if the originally entries in the register are not duly attested by the informant.

The possible illiteracy of an informant is no argument: he can easily affix his thumb impression. Besides, as is well known, illiterate persons can and do enter into contract and other legal transactions, in spite of their illiteracy.

3. I cannot likewise support the suggestion to omit the column "occupation" in the death register as the heading is advisedly added The role of "occupational diseases" is a recognised factor of far-reaching importance and data should be readily available - particularly in industrial centres or areas - to gauge the influence of special occupations and industries on the local mortality.

4. Relapsing fever, Influenza and Hook-worm are diseases that have come into prominence after the issue of the rules under consideration. The diseases may, as suggested, be included in Form No.2.

5. As regards classification of deaths according to "classes" the possibility for sub-division is legion. The existing classification is based on the standard annual form adopted by the Government of India for their Sanitary Report. There is, however, no objection to separate out "Adikarnatakas" and Adidravidas" and give them a sub-heading for themselves.

6. The slight dissimilarities pointed out in

para 3 (2) of his letter in the headings of the monthly return as compared with the register are due to the fact that the former is kept intact as it is a standardised form in which the monthly statistics have to be furnished to the Government of India. There is, however, no objection in elaborating the monthly form in the manner indicated by the President and in leaving it to the Sanitary Commissioner's Office to compile the figures as required for the Government of India every month.

7. The minor changes in the Forms of half-yearly review of vital statistics may be embodied. There is no necessity to open a new column in the birth register to show the total number of unvaccinated children from month to month, as a separate register for this purpose has been prescribed.

8. Coming to the suggestion that a page or two of instructions should be incorporated into every death register to serve as a guide to villagers identifying diseases, I must say that the diagnostic art can by no conceivable means be compressed into a set of hard and fast rules so as to be brought within the easy comprehension of patels of villages. It would be a waste of stationery to attempt to instruct them in this way. Just a foot-note may be added indicating that when the registering officer is in doubt as to the cause of death, he should enter fully and accurately all the symptoms noticed and leave it to the Inspecting Officer to name the cause later.

9. The sub-paras (5), (6) and (7) under para

para 2 of the President's letter deal with investing the rules under consideration with a statutory force. This can be easily done by re-issuing them (with necessary changes) under Section 20 of the Mysore Births and Deaths Regulation Act. It will be kindly noted that the Act has been extended to all rural tracts ~~x~~ under Government Notification No. L. 583/San. 57-21-13 dated the 23rd July 1923.

10. The births and deaths forms in triplicate would be too unwieldy in size. As a matter of fact, it has been suggested to the Government Press that single forms may be bound together and every alternate page provided with a tear off, to be detached and despatched to the Taluk Office. The despatch of a copy separately to the District Board Office involves a quite needless duplication of work. There is however, no objection to copies of the consolidated return of the taluk being furnished by the Taluk Office to the President of the District Board as well as to the District Medical Officer.

11. As regards village reviews being made collectively for hoblies or other convenient groups of villages, I agree that such a change is desirable in order to reduce the scriptoral work of the Sanitary Inspector to a minimum.

12. Rules 16, 17, 18 and 19 which relate to the organisation of work in non-rural tracts have no place in a set of rules intended for rural areas. They ~~are~~ may therefore be omitted.

13. The provision for special encouragement of care and accuracy in registration by the grant of certificates (rule 21) &c., has to

be omitted as it would be inconsistent with the statutory basis of the Regulation.

33) 14. With these alterations and other verbal changes such as the omission of "Deputy Sanitary Commissioner" (rule 20), the substitution of "Chief Sanitary Inspector" for "District Sanitary Officer" the substitution of "Registrar" for "Patel" &c., the existing rules would answer the purposes of Section 20 of the new births and deaths Regulation Act.

34) 15. The question of the need ~~for~~ of a separate set of rules for Municipal areas may be considered separately. I note from page 63 of the enclosed collection that particulars in regard to the registration of vital statistics in Municipal areas have been called for from the Deputy Commissioners of Districts.

35) 16. Information may also be obtained as to whether and how far the instructions of Government conveyed in the Local and Legislative Secretary's Memo No. L. 548-590 dated the 23rd July 1924 (page 60 of the collection) have been carried out.

36) 17. Section 20 (4) of the Regulation requires that a rule should be made "for the conduct of the duties of the registrar during his absence on other duty or on account of illness or other cause" For this purpose, the existing rule 4 may be amplified by the addition of a sentence as follows :-

> "In case of the absence of the Registrar for any reason whatsoever, the Shanbhogue of any other person generally or specially appointed by the Deputy Commissioner either by name or in virtue of his office shall be responsible for the efficient

Serial No.

8/ Attention is invited to paragraphs 17 and 18 of the notes above. The Senior Surgeon has furnished his opinion in the typed note. The suggestio of his note as to the forms made in ~~the~~ paragraphs 2 to 8 may be accepted, and the rules issued as under the Births and deaths Registration Regulation as recommended. The following suggestions as to the Rules ~~Regulation~~ require consideration:-

(1) Rule 4 is to be amended to provide for an Officiating Registrar during the absence of the permanent Registrar. This is necessary under the Regulation. Provision may be made.

(2) The review in the Taluk Office under rule 8 may be for each hobli instead of each village as suggested.

(3) As these rules should relate to rural areas only, the Sanitary Commissioner suggests the omission of Rules 16 to 19. Rule 16 relates to Unions which must be considered as rural areas and may be retained Rules 17, 18 and 19 which relate to Non-rural areas may as suggested be omitted.

(4) Rule 21 relating to special encouragement for good work would as suggested be out of place in rules under the regulation. It may be omitted. The verbal changes necessary inconsequence of the above rules will also have to be made.

9/ As the previous rules relate both to rural and urban areas and the rules now proposed will confine themselves to rural areas the question of framing the rules for urban areas will have to be separately taken up.

Subd with a typed copy of the rules
Refer paras 41 & 48.

24/7/26

24/7/26 I have further revised the rules and simplified the instructions. The as previously in force are somewhat verbose. In view of the fact that all villages will be panchayats hereafter it is for consideration if the rule to may remain. It seems to lay too heavy a duty on the Sanr Insp of the taluk. It may be omitted if approved. As we are revising the Sanr dept it is to be considered if we should oblige him to take the Dc's approval to his review of the Sr. There is no harm in his being asked to do this, however. The words the Sanr officer, have been changed to Dt. Sanr Officer wherever they occur as it is possible we shall have a Health officer in some places and Dt. Sanr Insps in others. A typed copy of the rules as revised is put up for consideration. Ref para 42. Before issue the rules will be put in the form of a notification to amend the B+D Regn regulation.

31/7

I regret the delay in submitting this case. Whether we may not wait for the review of the Sanr dept further to see what changes may be made in the rules is for consideration

26

Sec'y Medl

49 Under Rule 7, the San[y] Insp[r] or Asst Sanit Inspector of a Taluk will have to transmit the monthly returns to the Taluk Office and under Rule 8 he has to prep a review of the statistics before sub-mitting them to the Deputy Commissioner of the Taluk. The Taluk Bd will be established with the introduction of the new Dist Bd Organisation ~~in Shimoga Dt~~ and the Village Panchayats have likewise to arrange for sanitation & Conservancy in the Panchayat areas. and the Taluk Bds are concerned only with the Sani of different village Panchayats. It is therefore not likely that the Taluk Bds will maintain a Sanit or Asst Sanit Insp[r] for each Taluk as they may manage with the Chief Sanit Insp[r] for general work.

NOTE—Contn. Sheet

Serial No.

51) The retention of the duties to the Sanitary Board under Rule 13 has therefore to be reconsidered. The question of entrusting these to Sheristadars who under Rule 13 are given the general secretarial of the village registers may be considered

52) under Rule 45 (2) of the Madras Regulations. The District Board may provide for the registration of births & deaths within the District. The Presidents of the Unions may perhaps therefore be consulted as to the Rules proposed

NOTE—Contd. Sheet

WD 01264—GPB—40,000—17-12-28

Serial No.

57) "Registration of Births and Deaths" is one of the discretionary duties of the District Boards under Section 45 of the District Boards' Regulation; but it is not included among the duties of Village Panchayet as an amendment to include the same at the second stage of the Village Panchayet Bill was lost. Thus neither the District Boards nor the Village Panchayets can be required to attend to this duty in the absence of a compulsary provision in the Regulation. The Taluk Boards cease to exis on the 1st of February 1927 and there will not be any Local Funds staff available for compiling, supervising and checking the vital statistics in Taluks under the new scheme. The Village Panchaye Regulation makes provision for the appointmen of Inspectors of Panchayets for a Taluk or group of Taluks. There is no provision in the budget for making any such appointments during the curren year and it is not clear how many Inspectors will be appointed if at all and whether they will be perma nently appointed. The duty of supervising, chec ing and compiling vital statistics will have to b done by the establishment under the Amildar till separate arrangements are made. As regards the District figures the compilation is now done in th District Board office under the supervision of the Chief Sanitary Inspector If the Government appoi a Health Officer for a District the appointment of the Chief Sanitary Inspector will have to be aboli shed and the Health Officer will not be available for work under the orders of the President of the District Boards. Arrangements will have therefor

NOTE—Contn. Sheet

WD 01264—GPB—40,000—17-12-28

Serial No.

to be made for the compilation of the District figures in the office of the Health Officer or the District Office in such cases. If the District Board itself appoints a Health Officer or the Chief Sanitary Inspector's appointment is continued, the existing arrangement may continue unaltered unless the District Boards want a change. In order to suit any change that may be made either as regards the appointment of the Chief Sanitary Inspectors or consequent on the abolition of Taluk Boards it is expedient to direct that vital statistics be compiled for the Taluk in the Taluk office under the supervision of the Amildar, and for the District in the Deputy Commissioner's office under the supervision of the Chief Sanitary Inspectors or the Health Officer as the case may be.

58) The Sheikdars, Amildars and the higher Revenue and Sanitary officers should continue to check the registers of Births and Deaths for the village and the primary duty of checking the registers should lie on the Sheikdar as in the rules of 13th February 1879. Details regarding compilation and review of vital statistics do not require to be prescribed in the rules to be framed under Section 20 of the Registration of Births and Deaths Regulation and as such they may be disposed off in a separate G.O.

Medical

59) The rules as drafted go much beyond provisions of Section 7 and 20 of the Births and Deaths Regulation. ~~In rule 2~~ The duty of maintaining the Registers of births and deaths in Inam villages is cast

WD 01264—GPB—40,000—17-12-25

General and Revenue Secretariat | Sam File No. 57 of 192 (20)

Serial No.

on the Inamdars under rule 2 of the proposed rules. This is Rule 15 not authorised by the Regulation. Rule 15 is unnecessary and against the spirit of the discussions and decisions in the Legislative Council when the Village Panchayet Bill was discussed, of the other rules, Nos.3,4,6,7,8,9,10,11,12 and 16 are of a very formal character which may be disposed of by means of a G.O. No rules in the matter appear to be called for authorised. Again there is no provision in the proposed rules for certain items specified in Section 17 and clauses (5),(6) and (7) of Section 20 of the Regulation.

~~A revised set of draft rules after the scrutinising the rules prescribed by the Madras Government is submitted for approval or other orders.~~

DS 22/9/26

60) Three months and a half have elapsed since the new Ist Boards' and the V P Regns came into force the posts of chief Samy Insprs have been abolished. Inspectors of Panchayets have been appointed under the Village Panchayet Scheme and the arrangement is still temporary. The number of Samy Insprs under the ~~temporary~~ Ist Bd has also been reduced. In these circumstances the compilation of vital statistics will have to be attended to by the Sheristadar and the Amildars in the Taluk offices.

General and Revenue Secretariat. File No. 57 of 1927.

Serial No.

(63) With regard to the rules prepared in the G.M. Branch it is submitted as follows:-

(64) With regard to rule 1, Reference for requiring the Patel to enter at the time of the occurrence - every birth and death which happens in the village is unnecessary for the reason that in Secn. 15 of the Regulation provision is made for the Registrar to register all information furnished to him under Secns. 8 to 13. Besides the obligation on the -- part of the Patel to enter at the time of occurren is contrary to the provision of Secn. 15 which sa says that the entry should be made as soon as con- veniently may be after the event. Further, referen to strangers and resident villagers seems to be -- unnecessary for the reason that the Regulation doe not make any such distinction. ~~restriction~~. Under the Regulation, the criterion is whether the birth or death took place in the village, irrespective of the fact -- whether the occurrence related to a resident ~~xxkx~~ villager or a stranger.

(65) With regard to rule 2, it is submitted that under Secn. 5 of the Regulation it is the Deputy Commissioner that has got to appoint a Registrar and so the rule appointing Inamdars as Registrars is ultra vires.

N.B. "The object of prescribing this rule seems to be to compel the Inamdars to perform the duties of ~~a~~ Registrars under this Regulation. That object cannot be gained by a rule framed as in rule 2.

	The Inamdar can be appointed as Registrar like the Patel by name under Secn. 5 and not by virtue of office since he is not holding any office. Government, therefore, have no power to compel him to accept the office (as he does not get ~~and getting~~ any remuneration.
	When an Inamdar is appointed by a Deputy Commissioner under Secn. 5 by name and he declines to take office, the Deputy Commissioner will have to appoint any other person as Registrar for the inam village.
	(66) Rule 3 is ultra vires since there is no section which authorises the framing of such a rule.
	(67) With regard to Rule 4 this rule prescribes the appointment of the Shanbhogue or other person as Registrar if the Patel is either incapable or unable to keep the register. The power of appointment being vested in the Deputy Commissioner under Secn. 5, this provision is also ultra vires.
	(68) With regard to Rule 5, the supply of forms of registers is provided for in Secn. 7 and so the first sentence in the Rule is unnecessary.
	(69) Rules 6 to 12 and 16 make provision for the compilation and review of the statistics of the births and deaths for the District. It is submitted that the compilation of statistics is not within the scope of this Regulation and as such any rules prescribing instructions for the preparation of such statistics are ultra vires. The subject-matter of these rules may perhaps be issued as instructions by Government in an order.

NOTE—Contn. sheet

General and Revenue Secretariat. File No. 57 of 1921

Serial No.

70) With regard to Rule 15 it lays down an obligatory duty on a village panchayet to check the registers once a month. Whether such a function can be made obligatory in the absence of any authority under the Village Panchayet Regulation is a point for consideration. In this connection attention is invited to the proceedings of the Legislative Council for Feb 1926 where it was proposed to add the registration of births and deaths as a function of the Village Panchayets. The proposal was vetoed.

Papers 284 to 290 Flag B.

71) No rules have been framed for the purpose of Section 17 and clauses 5, 6 and 7 of Secn. 20.

72) A set of draft rules revised so as to be consistent with the provisions of the Regulation is herewith submitted for consideration. The rules have to be passed after previous publication (Vide Sec 20 of Reg.)

73) With regard to the Member's minute in para 53, it is submitted that under Secn. 45 of the District Boards' Regulation "registration of births and deaths" is one of the discretionary duties of the District Boards. Therefore, the District Boards may or may not undertake the duties of the compilation of vital statistics. Besides, the sanitary agency employed by the District Boards is not uniform in all the Districts. It is therefore, unsafe to depend upon the District Boards for the proper and efficient discharge of this important duty. ~~It is therefore submitted that~~ This duty may ~~perhaps~~ be performed by the Govt. agency. The statistics for the Taluk may be prepared by the Amildar and his revenue staff, and those for the District by the Deputy Commissioner.

74) I have gone through the whole draft rules prepared by the General Secretary. Some of them are defective in form and ~~xxxxxx~~ substance and there are no rules framed under Section 17 and also regarding clerical errors as contemplated by Section 20, Clause 6. I am in favour of retaining the rules regarding the maintenance of statistics and submission of returns by the Taluk office to the Deputy Commissioner and to the President of the District Board. The main object in framing these rules is to have effective control over the entries in the original register by the Registrar so as to minimise any tampering with the entries. The best safeguards in my opinion are to make arrangements for the checking of these returns by a responsible officer in the office of the Amildar ~~xxxxx~~ who should attest the entries in token of having checked them and then abstract the same in the Taluk register, copy of which should be sent to the Deputy Commissioner every month. This abstract is to be accompanied by a review by the Amildar each month. The object of the Chief Sanitary officer of the District reviewing once in 3 months is to ascertain any abnormal deaths from epidemics &c., and also for taking necessary steps for the prevention and spread of ~~the~~ epidemics

Serial No.

I.R.O. C 203-2
2/3.9.27.

78) The revised draft rules attached appear to me to be quite suitable. I would, however, suggest the following minor changes.

79) I. Register of deaths - Form No. 2.

The foot note as to causes of death - I would suggest putting the causes in the following order : -

1) Cholera
2) Plague
3) Small-pox
4) Relapsing-fever.
5) Influenza.
6) Malarial Fever.
7) Typhoid or other continued fever.
8) Pneumonia.
9) Consumption.
10) Other Respiratory Complaints.
11) Hook-Worm.
12) Diarrhoea, Dysentery and other bowel complaints.
13) Suicide.
14) Snake-bite.
15) Deaths from wild beasts.
16) Other injuries.
17) Child-birth.
18) Born dead.
19) Leprosy.
20) All Other Causes.

80) II. Rule 8 (a). After Head Gumasta in line three, I would add "assisted by the Sanitary or Panchayet Inspector at Taluk Head Quarters".

(b) Monthly return of Births - Form No. 3.

I would classify Hindus into "Hindus not dipressed classes" and "Hindus, depressed classes I would avoid using the words Adikarnatakas, Adidravidas. If these are used we have to add Adiandhras, Adimaharattas. Also persons belon-

NOTE—Contn. sheet.

Serial No.

belonging to the sweepers class and some wild tribes will be left out of the "Hindu Class". As already pointed out in my previous note the possibility of subdividing communities is practically unlimited. The classification as per my suggestion would, I feel, be sufficiently comprehensive and inoffensive.

81) (c) Form No. 4 Number of deaths &c. Classification of causes as in Form No. 2 to be adopted here, for the sake of uniformity. The age groups may also be the same as in Form No. 5.

82) (d) Form No. 5. Hindus to be classified as suggested above. Under causes of deaths, the headings to be the same as in Form No. 2.

III. Rule 12. Instead of "The District Sanitary Officer or if there be no District Sanitary Officer, the District Medical Officer will prepare &c.", I would suggest—

83) "The Sanitary Officer of the District and if there be no such officer, the District Medical and Sanitary Officer will prepare &c"

Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

85) The addition of the words "assisted by the Sanitary or Panchayet Inspector at Taluk Headquarters" in rule 8 does not appear to be suitable. The Sanitary - Inspector is under the control of the District Board and it may not be possibl for him or the Panchayet Inspector to attend to this duty

86) In rule 12 the amendment proposed may be made as it in no way affects the sense.

87) As regards the other alterations proposed there does not appear to be any objection to adopt them if the administrative Branch considers them to be necessary.

105/ Three
Submitted / Suggestions for modifying the draft rules relating to Births & Deaths Registration rules recently received from three Taluk Boards.

from 1. The District Medical Officer, Mysore
2. Mr. C. Subbanna Naik Patel &
R.A. Ananth, Chandlapur Koppa Taluk
3. The District Board, Kolar Dt.

106/ 1. The District Medical Officer, Mysore Dt. has suggested that the Patels of villages may be instructed to register Births & Deaths registered by the Sub Asst Surgeons when they go on duty to villages

V There is a recent G.O. directing that a copy of the Vital Statistics furnished by the municipalities should be furnished to the local Sub Asst Surgeon to keep him informed of the local health conditions. The suggestion goes a step further & suggests that a statement of ~~Sub Asst Surgeons~~ births & deaths of villages should be called for by Sub Assistant Surgeons by the last or 2nd week of each month. This is for consideration

114/ Seems a useful provision. The Director of Sanitation may be consulted from time to time as to what villages should be visited by the Sub Assistant Surgeons & the number of visits in each case. The number of visits may increase.

REGULATION No. III OF 1918.

(Received the Assent of His Highness the Maharaja on the 6th day of March 1918.)

A Regulation to make provision for the Registration of Births and Deaths in Rural Tracts.

PRICE SIX PIES.

REGULATION No. III OF 1918.

(Received the Assent of His Highness the Maharaja on the 6th day of March 1918.)

A Regulation to make provision for the Registration of Births and Deaths in Rural Tracts.

Whereas it is expedient to make provision for the registration of births and deaths in rural tracts; His Highness the Maharaja is pleased to enact as follows:— Preamble.

1. This Regulation may be called the Mysore Registration of Births and Deaths Regulation, 1918. Title.

2. The Government may, by notification, extend this Regulation, or any portion thereof, to any local area beyond the limits of the Municipalities consituted under the Mysore Municipal Regulation, 1906, and may also by notification exclude any such local area from the operation of the Regulation or any portion thereof. Extension and withdrawal of Regulation.

3. In this Regulation, unless there is something repugnant in the subject or context,— Interpretation Clause.

"Village" means any local area which for purposes of revenue-administration is now recognised as a village, or which may hereafter be declared by the Government to be a village, and in which local area this Regulation or any portion thereof is in force: "Village"

"Registrar" means a person appointed registrar of births and deaths under section 5 of this Rugulation. "Registrar."

4. On the publication of a notification under section 2 extending this Regulation or any portion thereof to any local area, the Deputy Commissioner shall cause to be proclaimed in Kannada by notices posted at the village chavadi or other conspicuous place and by beat of drum in every village within the area so notified and by publication in the Official Gazette the date from which registration of births and deaths will be compulsory in the said area. Deputy Commissioner to proclaim that registration will be compulsory.

5. (1) On the publication of such notification, the Deputy Commissioner shall appoint a person either by name or by virtue of any office he may hold to be Appointment of Registrars.

registrar of births and deaths for each village, or may if he sees fit divide any village into wards and appoint a person either by name or by virtue of any office he may hold to be registrar of births and deaths for each ward.

Registrars to keep registers in the prescribed form.

(2) Every registrar so appointed shall keep in the prescribed form a register of births and deaths for his village or ward, as the case may be.

Registrars to live in their villages or wards.

6. Every such registrar shall, unless otherwise expressly authorised by the Deputy Commissioner in writing, reside within the village or ward of which he is the registrar, and shall cause his name, with the addition of registrar of births and deaths for the village or ward for which he is so appointed, written in Kannada to be placed in some conspicuous place on or near the outer door of his office.

Deputy Commissioner to have registers printed and supplied.

7. (1) The Deputy Commissioner shall cause to be printed and supplied a sufficient number of register-books for making entries of births and deaths according to such forms and instructions as may, from time to time, be prescribed by the Government.

Copy of such forms to be posted in the office of the Registrar.

(2) A copy of such forms in Kannada shall be posted in some conspicuous place on or near the outer door of the office of every registrar.

Information of birth to be given within two weeks.

8. The father of every child or, in case of the death, illness absence or inability of the father, the midwife assisting at the birth, and in her default every adult male member of the family resident in the house in which the child was born and any person having charge of the child, or in default of the above the mother, shall, within two weeks next after the day of such birth, give or cause to be given, either orally or in writing information to the registrar, according to the best of his knowledge and belief, of the several particulars required to be entered in the forms prescribed under section 7:

Provisos.

Provided that a person not required to give information in the first instance but only in default of some other person shall not be bound to give information under this Regulation if he had reasonable cause to suppose that the information has been or would be duly given by such other person:

Provided also that, in the case of an illegitimate child, it shall in the first instance be the duty of the mother of such child to give information under this Regulation, and no person shall, a father of such child, be required to give information under this Regulation

concerning the birth of such child, and the registrar shall not enter in the register the name of any person as father of such child, unless at the joint request of the mother and of the person acknowledging himself to be the father of such child, and unless such person shall sign the register together with the mother.

Information to be given respecting new-born child found exposed.

9. In case any new-born child is found exposed, it shall be the duty of any person finding such child and of any person in whose charge such child may be placed to give, to the best of his knowledge and belief, to the registrar within seven days after the finding of such child, such information of the particulars required to be registered concerning the birth of such child as the informant possesses.

Information of death to be given within seven days.

10. The nearest adult male relative present at the death, or in attendance during the last illness, of any person dying in a village, or, in case of the default of such relative, every adult male person present at the death, or, in case of their default the occupier of the house, or in his default every adult male person living in the house in which such death has happened, or, in case of the default of such inmate, the person undertaking the disposal of the corpse shall, within seven days from the date of death, give or cause to be given, either orally or in writing, information to the registrar, according to the best of his knowledge and belief of the several particulars required to be entered in the forms prescribed under section 7.

Provided that a person not required to give information in the first instance, but only in default of some other person, shall not be bound to give information under this Regulation if he had reasonable cause to suppose that the information had been or would be duly given by such other person.

Head of the village bound to give information regarding other deaths.

11. In case any person is found dead in a village under circumstances not covered by section 10, it shall be the duty of the head of the village to give forthwith, to the best of his knowledge and belief, to the registrar, such information of the particulars required to be registered concerning such death as the informant possesses.

12 Notwithstanding anything contained in sections 8 and 10 of this Regulation,—

In case of births and deaths in hospital, medical officer in charge to send notice to the registrar.

(1) in case of a child being born or of a person dying in any hospital, it shall be the duty of the medical officer in charge forthwith to send to the registrar a notice in

writing of the occurrence of such birth or death containing the several particulars required to be entered in the forms prescribed under section 7

In case of births and deaths in choultries, etc., keeper or person in charge to give the information required.

(2) in case of a child being born or of a person dying in any choultry, chattram, hotel, boarding-house, lodging-house, tavern, arrack or toddy shop or place of public resort, it shall be the duty of the owner, keeper or person in charge thereof to give the information required under sections 8 and 10 in the manner specified therein within forty-eight hours of the birth or death, as the case may be.

A person giving oral information to write his name in the register.

13. Every person who has orally given to a registrar any information required under this Regulation shall write in the register his name, description and place of abode, and, if he cannot write, shall put his mark in the register to his name, description and place of abode, these particulars being in such case entered by the registrar.

When registrar to give extract free of charge.

14. The registrar shall, as soon as the registration of the birth of a child has been completed, give, on application, free of all charge, to the person who gives information of the birth an extract under his hand from the register relating to such birth.

Registrar to register information without fee or reward and inform himself of every birth and death.

15. Every registrar shall without fee or reward register all information furnished to him under sections 8 to 13 and it shall also be his duty to inform himself carefully of every birth and of every death which takes place in his village or ward, and he shall ascertain and register, as soon as conveniently may be after the event, the particulars required to the register according to the forms prescribed under section 7 touching every such birth and death, as the case may be, which has not already been registered..

Entry of name of child

16. When the birth of any child has been registered without name, the parent or guardian of such child may, within twelve months next after the registration of brith, require the registrar to enter in the register the name of such child and the registrar shall thereupon enter the name, and shall initial and date the entry.

Search of births and deaths registers.

17 Subject to any rules which the Government may make under section 20, any person may at all reasonable times, on payment of a fee of four annas for each visit search any register of birth and deaths, and may on payment of a further fee of four annas obtain an extract from such register relating to any birth or death registered therein.

All extracts given under this section shall be certified as provided in section 76 of the Indian Evidence Act, 1872,

and may be produced in proof of the entries of which they purport to be copies.

Penalty for omission to give information, etc.

18. Any person who—

(1) fails without reasonable cause to give any information which it is his duty to give under sections 8, 9, 10, 11 and 12 of this Regulation; or

(2) gives, or causes to be given, for the purpose of being inserted in any register of births or deaths, any information which is false and which he knows or believes to be false touching any of the particulars required to be known and registered; or

(3) Refuses to write his name, description and place of abode or to put his mark in the register if required by section 13

shall, on conviction before a Magistrate, be liable to a fine not exceeding ten rupees.

Prosecutions not to be instituted except under the order of an Amildar or an officer superior to him.

19. (1) No prosecution in respect of any offence punishable under this Regulation shall be instituted except under the order of the Amildar having jurisdiction over the village in which the offence was committed or of an officer to whom the Amildar is subordinate.

The Deputy Commissioner or any officer generally or especially empowered by him in this behalf may stay such prosecution.

Accused persons may appear and be defended by agents.

(2) In prosecutions for offences under the provisions of this Regulation, the accused persons may appear by an agent and may of right be defended by an agent:

Provided that the Magistrate may at any stage of the proceedings, for reasons to be recorded in writing, direct the personal attendance of the accused.

Power of Government to frame forms and make rules.

20 The Government may, after previous publication, make rules—

(1) prescribing the forms of registers of births and deaths required to be kept under this Regulation;

(2) prescribing returns and extracts to be submitted from time to time by the Registrar;

(3) for the inspection and examination of the registers maintained under section 5;

(4) for the conduct of the duties of the registrar during his absence on other duty or on account of illness or other cause.

(5) for the custody production and transfer of the registers and other records kept by Registrars;

(6) for the correction of clerical errors which may be discovered in the registers of births or registers of deaths

(7) generally to carry out the provisions of the Regulation.

OFFICE OF THE DEPUTY COMMISSIONER 12770 30 NOV. 1925 HASSAN

From

N. S. Nanjundiah, Esq.,
President, District Board,
Hassan.

To

GENL. & REV. SECTT. Br. 2 8 DEC. 1925 G. D. SECTION.

B. NAGAPPA, Esq., Bar-at-Law.,
Secretary to the Government of His Highness the Maharaja of Mysore, Local & Legislative Departments,
Bangalore.

Through the Deputy Commissioner, Hassan District.

Sanc 57-21—30

Sir,

1756 1781 2297 3051

With reference to your letter No.L.598, dated 23rd July 1924, and the reminders thereon calling for the views of the Board together with my own opinion as to the extent to which the existing rules relating to the registration of Vital statistics might be adopted etc., I have the honor to state that the District Board appointed a Committee consisting of (1) the District Medical Officer (Convenor) (2) the Assistant Commissioner, Hassan Sub Division, (3) Messrs. B.C.Anantaramiengar, (4) S. Venkatesaiya and (5) H. Govindasetti, with power to add and co-opt others, to consider this question in all its aspects and furnish their report.

2. The report of the Committee, a copy of which is enclosed, was considered by the Board at one of its meetings and it was resolved that the said report may be adopted with the observation that the headings in the existing forms may be simplified and rendered more clear and less elaborate. A copy of the resolution is also enclosed.

3. I have also considered the existing orders on the subject, the births and deaths Registration Regulation and the marginally noted forms now in use, and would make the following suggestions:-

1. Birth Register No. 1
2. Death " " 2
3. Mortuary " V
4. Form 8 B. Quarterly statement form:

(1) Cols. 11, 12 and 13 in the register of births and in that of deaths requiring the name, residence and signature of the informant may be safely omitted having regard to the illiteracy of the villagers and the impracticability of correctly filling up those columns, and obtaining the Signature of the informants who are also often illiterate.

Likewise col. 9 in the death register indicating the occupation of the deceased may also be omitted without much disadvantage.

As regards details as to the cause of death in form No. 2, the following may be added:-

1. Relapsing Fever.
2. Influenza.
3. Hook Worm.

In the classification of classes or nationalities, among births and deaths, separate sub heading for Adi-Dravadas and Adi-Karnatakas, Vokkaligars, Veerashaivas and other Hindus may be provided.

(2) The mortuary No. V, monthly form B, is based on the figures entered in the birth and death register; of the statement showing the Vital statistics (form No. 8 B) is also based on the entries on both these forms, but the headings in all these do not completely reconcile with one another.

(a) In Mortuary No V, monthly form B the sub heading Buddhists under the heading total No. of deaths may be omitted and sub headings such as Adi-Dravadas and Adi-Karnatakas, Vokkaligars, Veerashavias and other Hindus may be added.

(b) In this monthly form, the sub headings Chicken-pox and Measles may be omitted as deaths from these causes are perhaps or are comparatively few; otherwise similar headings may be opened in the daily returns of deaths in the death Register.

(c) The sub heading "Fevers" under the heading "cause of death"

in the form of monthly return may be amplified by providing distinct minor headings under Malarial Fever, Typhoid Fever, Relapsing fever, and Influenza, Pheumonia etc., as figures under some of these headings are provided for the periodical statement showing Vital statistics (form 8 B), which is used by the District Boards for the review of Vital statistics.

(c) A separate heading for "consumption" has to be provided for in the mortuary No. V. to make it consistent with the other two forms.

(e) To the sub heading "Dysentry and Diarrhoea" may be added and other "bowel complaints" to make it consistent with form 8.

(f) The sub heading "snake bite or killed by wild beasts" may be sub divided into two different parts, or, the separate sub headings in form No. 8 may be clubbed together.

(g) In the mortuary monthly form, a sub heading for "born dead" must be added to make it consistent with the other two forms above named.

(h) The headings under marriages may safely be omitted as such entries are not provided for in the Birth ar death registers of individual villages and as a matter of fact, the recording of the marriages is not in use.

(3) Since half-yearly reviews are substituted for quarterly ones, the heading in form No. 8, may be suitably amended.

Further, under the heading of "prevalence of epidemics", Relapsing fever and Influenza, may be added.

Under the heading protection against small-pox, the word 'persons" may be substituted for the word "children", as there are cases of adhlts being vaccinated or re-vaccinated.

In short, the headings and sub headings in the said marginally noted forms require to be reconciled. It may also be noted that as information relating to the number of unprotected children at the end of each half-year is called for in form No.8, a column should be opened in the birth and death register indicating in each month, the number of persons who are unprotected, and the village officials should be compelled to maintain accurate lists of unprotected persons in the Village and this list should undergo variations with the entries of the Birth and death registers also.

(4) Every register of deaths may be provided with a page or two containing instructions giving the general symptoms of the several kinds of diseases, deaths from which require to be noted under different headings in the register to enable the ordinary village Officials to make correct entries as far as possible, and also indicating the dates within which the foils should be despatched to the higher authorities. At the same time, ordinary precautions to be taken in the case of ordinary diseases, and general simple rules of Hygiene and sanitation in kannada may also be printed in the same as this procedure will have its own educative value to the villagers.

(5) The existing rules published with the Government Notification of 10th March 1916, have no statutary force. The village offices Regulation was passed in the year 1908 and came into operation from 1st July 1909. The rules under the Regulation were passed on 19th April 1917. In defining the duties of the village Officers, in the said rules, in part 8, his (the patels) revenue and Police duties are alone mentioned in rule 81 without any reference to the correct recording of Vital Statistics

Statistics and their due submission in time to the authorities concerned, though in part 3, one of the qualifications to hold the office of the Patel is stated to be the ability to write up registers of Vital Statistics (vide Rule 24 Village Officers Regulation.) The general provision in rule 88 that the Patel shall keep the prescribed Registers and accounts cannot effectively cover this function regarding the maintenance of these Registers and the due submission of the returns.

(6). The existing Local Board's Regulation which was passed in the year 1918 makes no reference to these rules, or the subject itself. The births and deaths Registration Regulation which was passed in 1918 with the express object of making provision for the registration of births and deaths in rural tracts does not also make any reference to these rules. It would be advantageous to introduce the said births and deaths Regulation, in suitable areas where literacy has made an advance. In other places suitable amendments may be made by imposing a legal obligation on the persons concerned to give informations in the matter, providing for light punishments in case of wilful default. Having regard to the fact that the system of the universal Panchayet is going to be introduced, the Panchayet may be invested with powers to mete out the punishments.

7) As a rule, returns of Vital Statistics are rarely received from alienated villages. A statuary obligation on the part of the Inamdars about the correct and timely submission of the returns should be imposed providing reasonable penalty in case of default. Rule 2 of the existing rules requires an amendment in that direction. As regards rule 3, the authority to whom the Local body should issue instruction must be mentioned making it also incumbent on such authority to furnish the information called for.

As regards rule 4, it should be made clear that in cases of the Patel's inability to write the registers of any particular village, in the Register itself should be entrusted to the Shanbhog concerned.

In rule 5, the Village forms should be made in triplicates as suggested by the committee. It should also be provided that one of the triplicates should be sent to the President of the District Board. It might be better to arrange carbon copies being despatched. A column may also be opened in it showing the No of vaccinations performed and the No. of the unprotected children residing in the village.

(10) In rule 8, provision should be made for a copy being sent to the President of the District Board as well as the District Medical Officer through the Medical Officer residing in the Head quarters of the Taluk.

(11) Rule 9, requiring the preservation of the village returns for a period of 12 years requires modificatinn to make it consistent with the record destruction rules in force.

(12) As regards rule 10, it may be noted that the Chief Sanitary Inspector has taken the place of the District Sanitary Officer and in the Government Order defining the duties of the Chief Sanitary Inspector, necessary provision will have to be made so as to be in conformity with the said rule No. 10.

(13) Rule 11, requires modification substituting the District Board Office for that of the Deputy Commissioner.

(14) Rules 12 requires a similar amendment and the word half-year must be substituted for the word quarter. It would be advantage if the Chief Sanitary Inspector should be enabled to obtain the approval of the District Medical Officer to his memorandum before placing it before the District Board for

for consideration.

(15) In rule 15, village Panchayets may be substituted for Improvement committees.

(16) It would be impossible for the Sanitary or the Assistant Sanitary Inspector, to present to the committee or the Panchayet quarterly statements of Vital Statistics to each village Panchayet or committee, nor would such a step be of much use. Such statements may be made hobliwar or for other convenient groups.

(17) Rule 17, requires suitable modification. There are no non-Regulation Municipalities now in existance and some of the minor Municipalities have their own Sanitary Inspector or Sanitary Maistries. In such cases the duty of registering the Statistics may be entrusted to them. But in places where there are no Inspectors, it is futile to expect a Municipal Councillor to collect the information and furnish it to a Sub Assistant Surgeon. Moreover it cannot be said that there would be a Sub Assistant Surgeon in every minor Municipality. The Municipal Council may however be required to make their own arrangements for the appointment of a registrar who may be the Sub Assistant Surgeon or the Municipal clerk or the Chief executive official of the Municipality, or the Patel of the village as the case may be In all such cases however an obligation should be cast on the inhabitants also to give report of the occurrences.

(18) More than the award of certificates of recognition for good work done by the village Officers in this direction, disciplinary action in the case of recalcitrent officials is imminently called for. Suitable provision may be made for erring officials to be brought to book on the recommendations of the local bodies also, and wherever good work is done or the magnitude of the task is great

(c) suitable increase in the potagi should be given so as to serve as an inducement to the beighbouring village officials to avail themselves of such opportunities. The action taken by the Revenue authorities on the recommendation of the local bodies should also be intimated to them.

(19) Suitable provision must be made for the collection of information as regards births and deaths among travellers, tramps, beggers, Hospitals, Lockups, Choultries, Railways, Musafirkhanas and travellers bungalows etc.

(20) In conclusion, I should like to suggest that these rules may be given statutary force by incorporating them as rule duly framed under the Local Boards or Village Panchayets Regulation or the Village Officers Regulation.

I have the honor to be,

Sir,

Your most obedient servant,

President,
District Board, Hassan.

Gl. 12770-28/7.12.25.

Forwarded with compliments.

30.11.25

By commissioner
Hassan District

Report of the Sub Committee, appointed by the District Board, re: the registration of Vital Statistics.

Improvements in the collection of Vital statistics are wholly dependent on the progress of literacy and Education among the classes from whom the village officers are drawn. The substitution of any other organisation is impracticable; for the agents of the organisation must be resident in each village in daily contact with the people if the vital occurrences are to be chronicled before they are forgotten or even occasionally concealed. Considering the state of literacy among the village Patels now, all that can at present be usefully attempted is to secure greater accuracy of figures and more regular submission of returns.

More detailed and accurate information about the causes of deaths would no doubt be very valuable. The ideas of the village headman in this matter are primitive. The root cause is in his view 'fate' which, out of deference to those in authority over him, he describes as "fever", "old age", "malignant" "Diarrhoea" or any other common name that may be suggested by the most prominent symptom or the age of the sufferer. Even in cases where such unhappily common epidemics as Plague, Cholera or Relapsing Fevers have carried away large numbers, the entries in the vital statistics register do not disclose the out break of an epidemic. It may be noticed too that while a Patel may himself have reported the outbreak of an epidemic in his village, yet in recording the cause of death in individual cases he put downs a less alarming disease. The truth is that the ignorant people are afraid to disclose the real cause for fear of the application of inconvenient Sanitary precautions. There is also an unhappy reluctance to face the worst. It is repellant to their sentiments to give a "bad name" to the ailment of the deceased. It seems to be looked upon almost as defamation of the dead. If to these feelings are added absolute ignorance in recognising the commonest ailments by their symptoms,

it will be recognised that any change for the better can only come with time and patient labour.

While therefore we recognise that changes for securing better statistical returns in this respect are impracticable, we still think that the existing supervising agency can do something to discover more promptly the causes of any deviations from the normal. (1) The Sanitary Inspector during his visits should make it a point to verify the entries by local enquiries. With his training, it should not be difficult for him to ascertain at least, if any epidemics have prevailed. He could also ascertain in particular any errors in the entries about age. This latter is of particular importance. (2) Similarly the Revenue officers might also forward to the Health Officer, any points observed by them during their inspections. Under the rules at present there is provision for inspection and supervision as above. But the results are lost as they are not separately recorded and duly weighed in the periodical reviews of vital statistics. Provision should be made for their being recorded separately and considered at the time of the review. (3) Similarly officers of the Medical Department in places where they are stationed should be authorised and required to send in the results of their observations. These measures may help in a way to enable the Patels to understand better what is required of them in these returns; but what is more important, they may reveal the cause, in cases of excessive mortality and make it possible to adopt effective remedial measures.

In other respects we think great improvement is possible both in recording the occurrence and forwarding the return. If necessary action is taken to enforce the forwardal of the duplicates by the Patels in proper time it will itself ensure the

correctness of the figures. Cases of wilful omission to record an occurrence seem to be very rare. They mostly arise from forgetfulness when time has been allowed to elapse without being recorded. (1) If the forwardal of the duplicate of the register in the first week of the succeeding month is insisted upon it will largely obviate errors due to this cause. Coupled with the systematised inspection above suggested, this kind of error ought to be almost completely eliminated.

To secure that the Patels send in the duplicates of the Registers in time to the Taluk, circulars should be issued to them in kannada informing them of the time when they are due and the penalities that follow non-submission. We do not think that the prospect of illusory rewards for the due performance of duty are sufficient. The obligation must be enforced by taking prompt diciplinary action. The maintenance of registers in the Taluk with serial numbers have not proved effective as many as 30% to 50% of the village Patels are reported to have been in default. The records about the regular submission of the duplicates should be scrutinised at the time of the disbursement of Potige. (2) An outside check may also be introduced. At present only one copy is sent to the Taluk. It should be made obligatory to forward direct by post a copy to the President of the District Board. In the District Board office failures should be noted and the Amildars at once informed. A monthly list of defaulters brought to the notice of the Amildar for needful action should soon bring about a satisfactory situation. To facilitate this the forms will have to be printed in triplicate and one of the foils should have printed on its back the address of the President of the District Board so that it may be simply folded up, gummed and posted. It would indeed be a pity not to impress the Post office into

service. This procedure would have the additional advantage of giving the District Board promptly and regularly information about the state of Public health in the villages. Of course this is not intended to supersede special reports about epidemics.

We think that so far as registration of births are concerned we should only look to better inspection and supervision for any improvement. We fear that unlike cases of mortality numbers of births fail to be recorded. Births are less sensational and are therefore sooner forgotten. One remedy would be to make the returns fortnightly instead of monthly. We fear that such a change would be premature in view of the difficulties that are being experienced in getting even the monthly returns.

We have throughout considered till now the returns as sent by the Patel to the Taluk. As regards the consolidated returns from the Taluks we think it sufficient at present if we can secure due submission within a date that should be fixed say the 15th of every month. With the returns should be submitted a statement of defaulting village officers. These statements should be submitted to the Deputy Commissioner with a note of the action taken in each case, to enable him to apply the remedy. The half yearly review by the District Board should also pay regular attention to these administrative aspects of the question.

One radical remedy that would probably cure most of these defects is to make registration of vital occurrences compulsory on the family. Of course legislation would provide the re-actions necessary to ~~provid~~ enforce it. We fear however that the ignorance of the people is an insuperable bar to the consideration of such a step. It may however be possible to make a beginning in the two cities in the Province. They may serve as examples. We

would add in conclusion that in our view there is great scope for local bodies to undertake propaganda work by means of Health lectures, Baby shows and so on. There is an unlimited field of work in enlightening the people about the extent to which the causes of mortality are avoidable by sanitary or prophylactic action and the obligations of parents.

No..C.203-4

Office of the Sanitary Commissioner
with the Government of Mysore,

Bangalore, dated the 3rd Oct: 1927.

From,

B. Mahomed Usmon, Esq., L.M. & S.,
Sanitary Commissioner in Mysore, Bangalore.

To

The General Secretary to
the Government of Mysore, Bangalore.

Sir,

With reference to your un-official memo No. G.3565/San. dated the 29th Sep: 1927, I have the honor to state that the un-official file No. 1741/San. dated the 29th Aug: 1927, re: rules pertaining to the registration of births and deaths was returned with my opinion with this office No. C. 203-2 dated the 3rd September 1927.

I have the honor to be,
Sir,
Your most obedient servant,

B. Mahomed Usmon

Sanitary Commissioner, M.G.

A.R.M.

Draft

NOTIFICATION.

In exercise of the powers conferred on the Government by the Mysore Registration of Births and Deaths Regulation, 1918, it is proposed to issue the following rules:--

2. Notice is hereby given that the draft rules will be taken into consideration on or after the 10th December 1927. Any objection or suggestion which may be received from any person with reference to the draft rules before the aforesaid date will be taken into consideration.

Draft Rules.

Form of registers.

1. The register of births shall be maintained in form 1 and the register of deaths in form No.2 appended in counterfoil and outerfoil.

Entries to be numbered serially.

2. In both the registers the serial number of the event should be entered commencing from 1st January and the series should be continued up to 31st December and no entries should be interpolated between two serial numbers.

Entry in special cases.

3. In the case of a child which is born dead and also in the case of a child which dies before its birth has been registered, the registrar should enter the birth in the register of births and the death in the register of deaths.

Registers to be renewed once in five years.

4 Every register shall be used continuously for a period of five years after which a new register shall be opened and maintained.

Outer-foils of registers to be sent to Amildar or Deputy Amildar at the end of the month.

5. The outer foils which have been written upon during every month shall be detached and sent by the Registrar direct to the Amildar of the Taluk or the Deputy Amildar of the Sub-Taluk as the case may be, so as to reach him or before the 5th day of the month following the entry.

Written information received by Registrar to be preserved for two years.

6. All information received by the Registrar in writing in regard to the registration of births and deaths shall be filed by him and preserved for two years.

Check in the Taluk office to ensure regular receipt of returns.

7. A standing list of all ~~towns and~~ villages in the Taluk arranged according to hoblies will be kept in the Taluk office, each ~~town and~~ village being given a distinct serial number. The order in which the places are entered in the list should remain unaltered. A register should be kept in the Taluk Office in form 5 appended for compiling the information received from the villages month after month. The villages should appear in this register in the order given in the standing list.

Procedure in the Taluk Office.

8. On receipt in the Taluk Office, the monthly returns will be examined by the Head Gumasta who should certify the figures and initial each return before it is admitted for final entry in the Taluk Register For purposes of classification the monthly forms 3 and 4 will be printed respectively on the reverse of the counter-foil of each birth and death register form. The abstract figures classified and attested by the Head Gumasta will be entered in the Taluk Register, total by hoblies being also indicated. When a return relating to any village is not

received it should be obtained by the Amildar without loss of time and the entries in the Register duly completed.

Submission of the Taluk Monthly Returns.

9. After completion of the entries a copy of the register for the month will be forwarded by the Amildar to the Deputy Commissioner and to the President of the District Board along with a review of the figures by hoblies so as to reach them before the end of the month next after that to which the statistics relate.

Recording of the returns and registers.

10. The village returns for every month should be arranged according to hoblis and serial numbers and ~~xxxxxxxxxx~~ stitched and recorded in the Taluk office. They will be preserved for a period of twelve years and then destroyed The abstract register shall be permanently preserved.

Procedure in the Deputy Commissioner's office.

11. The returns submitted by the Taluk Office should be scrutinised by the District Office, each Taluk return being seen and attested by the ~~chief~~ Sanitary officer of the District before it is booked in the abstract register. The register will be maintained in the same manner as that in the Taluk Office, the figures being entered hobliwar and not villagewar. On the completion of the entries for each month, a copy of the register for the month showing totals by Taluks will be forwarded to the Sanitary Commissioner in Mysore so as to reach him before the 15th of the second month following that to which the returns relate. The District returns will be consolidated in the Sanitary Commissioner's

office for incorporation in the annual report on Sanitation.

Preparation of reviews.

12. ~~Preparation of reviews:--~~ The ~~District~~ Sanitary Officer of the District and if there ~~is~~ no District Sanitary Officer, the District Medical and Sanitary Officer will prepare every quarter a short memorandum reviewing the vital statistics of the District for the quarter and submit copies thereof to the Deputy Commissioner, the President of the District Board and the Sanitary Commissioner. The memorandum should bring out the outstanding features of the state of public health in the District and indicate the measures for improvement.

Grant of copies.

13. The Registrar shall give a certified extract from the registers kept by him under Section 17 of the Regulation. If he is not in possession of the registers the Amildar or the Deputy Amildar as the case may be in whose custody such registers are kept shall give and certify extracts therefrom under Section 17 of the Regulation

insert after 11 at A.

Clerical errors.

14. The Registrar may correct any clerical or arithmetical error or a variance with the original information received in writing. Every clerical error found in the register of births or in the register of deaths shall be corrected by drawing a line on the original entry (but not so as to render it illegible) and writing the new entry above it, and the correction should be initialled and dated by the Registrar alone, if the error be discovered by him or both by the Registrar and the

checking officer if the error be discovered by the latter. Provided that no entry shall be corrected under this rule more than a year after the entry is made except with the previous sanction of the Assistant Commissioner.

Registers and records to be open to inspection.

15. The registers and the accounts relating to fees recovered under Section 17 of the Regulation and the other records to be preserved or maintained by the registrar will be open to the inspection of any or all of the following persons:-

(1) any Revenue officer of and above the rank of a Shekdar.

(2) the Inspector of Panchayets.

(3) any Sanitary or Medical officer employed by the Government

(4) the President, Vice-President and Chief Officer of the District Board

(5) any Sanitary Inspector and the Chief Sanitary Inspector employed by the District Board and the Chairman of the Village Panchayet.

A. Insert rule 15 on previous page

The Shekdar and the Amildar or the Deputy Amildar to exercise supervision over registers.

16. The Shekdar and Amildar or Deputy Amildar shall constantly inspect the registers of births and deaths and other records, enquire in the villages what biths and deaths have recently taken place compare the registers to see if all are entered, supply omissions, instruct the Registrars as to the discharge of their duties, see that the outer-foils of the registers are regularly and punctually submitted to the Taluk or Sub-Taluk office and exercise a general supervision over the work of the Registrars. The registers shall be checked at least once in two months by the Shekdar and the

entries verified should bear the initials of the checking officer.

Temporary arrangements during illness or absence of Registrar.

17. In case the Registrar is unable for more than a week to attend to his duties on account of illness or other urgent cause, he shall report the fact to the Amildar who shall at once make temporary arrangements for the performance of the duties of the Registrar and any person thus temporarily appointed shall be held to be the Registrar for the purpose of the Regulation and of these rules. The Amildar shall report the arrangements to the Deputy Commissioner.

Registers to be finally deposited in the office of Amildar or Deputy Amildar.

18. Each register shall be retained in the custody of the Registrar for one month after it is closed and shall then be transferred to and deposited in the office of the Amildar or the Deputy Amildar as the case may be.

Returns to be submitted by the Registrar.

19. The Registrar shall, on the last day of each month prepare and submit to the Amildar or the Deputy Amildar as the case may be,

(a) a list of births and deaths which have not been reported to him for registration with the names of the persons responsible for failure to give the required information; and

(b) a report on the particulars of the offences, if any, committed under clauses (2) and (3) of Section 18 of the Regulation.

By order,

Secretary to Government,
General Department.

Reg. No. M.—1175.

The Mysore Gazette

Vol. 62.] PUBLISHED BY AUTHORITY. [No. 45.

BANGALORE, THURSDAY, NOVEMBER 3, 1927.

PART III.

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. G. 4449—*San.* 57-21-31, *dated* 1*st November* 1927.

In exercise of the powers conferred on the Government by the Mysore Registration of Births and Deaths Regulation, 1918, it is proposed to issue the following rules :—

2. Notice is hereby given that the draft rules will be taken into consideration on or after the 10th December 1927. Any objection or suggestion which may be received from any person with reference to the draft rules before the aforesaid date will be taken into consideration.

DRAFT RULES.

Form of registers.

1. The register of births shall be maintained in form 1 and the register of deaths in form No. 2 appended, in counterfoil and outerfoil.

Entries to be numbered serially.

2. In both the registers the serial number of the event should be entered commencing from 1st January and the series should be continued up to 31st December and no entries should be interpolated between two serial numbers.

Entry in special cases.

3. In the case of a child which is born dead and also in the case of a child which dies before its birth has been registered, the registrar should enter the birth in the register of births and he death in the register of deaths:

Registers to be renewed once in five years.

4. Every register shall be used continuously for a period of five years after which a new register shall be opened and maintained.

Outer-foils of registers to be sent to Amildar or Deputy Amildar at the end of the month.

5. The outer foils which have been written upon during every month shall be detached and sent by the Registrar direct to the Amildar of the Taluk or the Deputy Amildar of the Sub-Taluk, as the case may be, so as to reach him on or before the 5th day of the month following the entry.

Written information received by Registrar to be preserved for two years.

6. All information received by the Registrar in writing in regard to the registration of births and deaths shall be filed by him and preserved for two years.

Check in the Taluk office to ensure regular receipt of returns.

7 A standing list of all villages in the Taluk arranged according to hoblis will be kept in the Taluk Office, each village being given a distinct serial number. The order in which the places are entered in the list should remain unaltered. A register should be kept in the Taluk Office in form 5 appended for compiling the information received from the villages month after month. The villages should appear in this register in the order given in the standing list.

Procedure in the Taluk Office.

8. On receipt in the Taluk Office, the monthly returns will be examined by the *Head Gumasta* who should certify the figures and initial each return before it is admitted for final entry in the Taluk Register. For purposes of classification the monthly forms 3 and 4 will be printed respectively on the reverse of the counter-foil of each birth and death register form. The abstract figures classified and attested by the *Head Gumasta* will be entered in the Taluk Register, total by hoblis being also indicated. When a return relating to any village is not received, it should be obtained by the Amildar without loss of time and the entries in the Register duly completed.

Submission of the Taluk Monthly Returns.

9. After completion of the entries a copy of the register for the month will be forwarded by the Amildar *to the Deputy Commissioner* and to *the President of the District Board along with a review of the figures by hoblies* so as to reach them before the end of the month next after that to which the statistics relate.

Recording of the returns and registers.

10. The village returns for every month should be arranged according to hoblis and serial numbers and stitched and recorded in the Taluk Office. They will be preserved for a period of twelve years and then destroyed. The abstract register shall be permanently preserved.

Procedure in the Deputy Commissioner's Office.

11. The returns submitted by the Taluk Office should be scrutinised by the District Office, each Taluk return being seen and attested by the Sanitary Officer of the District before it is

booked in the abstract register. The register will be maintained in the same manner as that in the Taluk Office, the figures being entered hobliwar and not villagewar. On the completion of the entries for each month, a copy of the register for the month showing totals by Taluks will be forwarded to the Sanitary Commissioner in Mysore so as to reach him before the 15th of the second month following that to which the returns relate. The District returns will be consolidated in the Sanitary Commissioner's Office for incorporation in the annual report on Sanitation.

Preparation of reviews.

12. The Sanitary Officer of the District and if there be no District Sanitary Officer, the District Medical and Sanitary Officer will prepare *every quarter a short memorandum* reviewing the vital statistics of the District for the quarter and submit copies thereof *to the Deputy Commissioner, the President of the District Board and ~~the~~ Sanitary Commissioner.* The memorandum shonld bring out the outstanding features of the state of public health in the District and indicate the measures for improvement.

Clerical errors.

13. The Registrar may correct any clerical or arithmetical error or a variance with the original information received in writing. Every clerical error found in the register of births or in the register of deaths shall be corrected by drawing a line on the original entry (but not so as to render it illegible) and writing the new entry above it, and the correction should be initialled and dated by the Registrar alone, if the error be discovered by him or both by the Registrar and the checking officer if the error be discovered by the latter. Provided that no entry shall be corrected under this rule more than a year after the entry is made except with the previous sanction of the Assistant Commissioner.

Registers and records to be open to inspection.

14. The registers and the accounts relating to fees recovered under Section 17 of the Regulation and the other records to be preserved or maintained by the registrar will be open to the inspection of any or all of the following persons :—

(1) any Revenue Officer of and above the rank of a Shekdar ;
(2) the Inspector of Panchayets ;
(3) any Sanitary or Medical Officer employed by the Government ;
(4) the President, Vice-President and Chief Officer of the District Board;
(5) any Sanitary Inspector and the Chief Sanitary Inspector employed by the District Board and the Chairman of the Village Panchayet.

Grant of copies.

15. *The Registrar* shall give a certified extract from the registers kept by him under Section 17 of the Regulation. If he

is not in possession of the registers, the Amildar or the Deputy Amildar as the case may be in whose custody such registers are kept shall give and certify extracts therefrom under Section 17 of the Regulation.

The Shekdar and the Amildar or the Deputy Amildar to exercise supervision over registers.

16. The Shekdar and Amildar or Deputy Amildar shall constantly inspect the registers of births and deaths and other records, enquire in the villages what births and deaths have recently taken place, compare the registers to see if all are entered, supply omissions, instruct the Registrars as to the discharge of their duties, see that the outer-foils of the registers are regularly and punctually submitted to the Taluk or Sub-Taluk office and exercise a general supervision over the work of the Registrars. The registers shall be checked at least once in two months *by the Shekdar* and the entries verified should bear the initials of the checking officer.

Temporary arrangements during illness or absence of the Registrar.

17. In case the Registrar is unable for more than a week to attend to his duties on account of illness or other urgent cause, he shall report the fact to the Amildar who shall at once make temporary arrangements for the performance of the duties of the Registrar and any person thus temporarily appointed shall be held to be the Registrar for the purpose of the Regulation and of these rules. The Amildar shall report the arrangements to the Deputy Commissioner.

Registers to be finally deposited in the office of Amildar or Deputy Amildar.

18. Each register shall be retained in the custody of the Registrar for one month after it is closed and shall then be transferred to and deposited in the office of the Amildar or the Deputy Amildar as the case may be.

Returns to be submitted by the Registrar.

19. The Registrar shall, on the last day of each month prepare and submit to the Amildar or the Deputy Amildar, as the case may be,

(*a*) A list of births and deaths which have not been reported to him for registration with the names of the persons responsible for failure to give the required information; and

(*b*) a report of the particulars of the offences, if any, committed under clauses (2) and (3) of Section 18 of the Regulation.

By Order,
R. RANGA RAO,
Secretary to Government,
General Department.

General Secretary to Govt. of Mysore, - Bangalore.

Sir,

I have the honour to State that the following suggestions may kindly be included in the draft rules of Births and deaths if approved

(1) If no Statement of Births is sent much inconvenience is felt by the Sub-Assta-Surgeon, when he submits the Labour Statement

(2) It will facilitate work ~~when~~ to prepare Correct Statistics of unprotected Children ~~are given to the~~ by Sub-asst-Surgeon.

(3) The Patels of the villages may be instructed to produce the births and deaths register, maintained by them and produce the same to the Sub-asst-Surgeon whenever they go on duty to Villages

Under these circumstances I request you to be so good as to instruct the municipalities and Village Panchayets to send the Statements of births and deaths to the Sub-Assn-Surgeons by 1st or 2nd of each month wherever the

Dispensaries are Located.

I have the honour to be,

Sir,

KOLAR DISTRICT.

Dated, Kolar, the 21st November 1927

From

C. B. Gopala Rao, Esquire,

President, District Board, KOLAR.

To

R.Ranga Rao, Esquire, B.A., B.L.

SECRETARY TO THE GOVERNMENT OF MYSORE,

Department, BANGALORE.

(THE DEPUTY COMMISSIONER, KOLAR DISTRICT)

Sir,

I have the honour to state that Mr.Santhehalli Venkatasamegowda, Malur Taluk, a member of the District Board sent up a resolution to the District Board proposing that the old Birth and Death registers may be revived as the two registers recently prescribed contain some unnecessary headings.

2. The sub ect was considered by the District Board in their meeting held on the 5th November 1927 and they have voted for the proposition. Copy of their resolution is enclosed.

3. A combined register would be more handy and convenient than two registers for birth and death.

4. I request that Government may be pleased to order the issue of a combined register as proposed by the Board

I have the honour to be,
Sir,
Your most obedient servant,

C B Gopala Rao
President,

PART III.

Legislative Measures and Rules thereunder.

NOTIFICATION

No. G.-1449—San 57-21-31 dated 1st November 1927

In exercise of the powers conferred on the Government by the Mysore Registration of Births and Deaths Regulation, 1918, it is proposed to issue the following rules :—

2. Notice is hereby given that the draft rules will be taken into consideration on or after the 10th December 1927. Any objection or suggestion which may be received from any person with reference to the draft rules before the aforesaid date will be taken into consideration.

~~DRAFT RULE~~

Cap

1. The register of births shall be maintained in form 1 and the register of deaths in form No 2 appended in counter foil and outerfoil. Form of registers

2. In both the registers the serial number of the event should be entered commencing from 1st January and the series should be continued upto 31st December and no entries should be interpolated between two serial numbers. Entries to be numbered serially.

3. In the case of a child which is born dead and also in the case of a child which dies before its birth has been registered, the registrar should enter the birth in the register of births and he death in the register of deaths. Entry in special cases.

Registers to be renewed once in five years.

4. Every register shall be used continuously for a period of five years after which a new register shall be opened and maintained.

Outer foils of registers to be sent to Amildar or Deputy Amildar at the end of the month.

5. The outer foils which have been written upon during every month shall be detached and sent by the Registrar direct to the Amildar of the Taluk or the Deputy Amildar of the Sub-Taluk, as the case may be, so as to reach him on or before the 5th day of the month following the entry.

Written information received by Registrar to be preserved for two years.

6. All information received by the Registrar in writing in regard to the registration of births and deaths shall be filed by him and preserved for two years.

Check in the Taluk office to ensure regular receipt of returns.

7. A standing list of all villages in the Taluk arranged according to hoblis will be kept in the Taluk Office, each village being given a distinct serial number. The order in which the places are entered in the list should remain unaltered. A register should be kept in the Taluk Office in form 5 appended for compiling the information received from the villages month after month. The villages should appear in this register in the order given in the standing list.

Procedure in the Taluk Office.

8. On receipt in the Taluk Office, the monthly returns will be examined by the *Head Gumasta* who should certify the figures and initial each return before it is admitted for final entry in the Taluk Register. For purposes of classification the monthly forms 3 and 4 will be printed respectively on the reverse of the counter-foil of each birth and death register form. The abstract figures classified and attested by the *Head Gumasta* will be entered in the Taluk Register, total by hoblis being also indicated. When a return relating to any village is not received, it should be obtained by the Amildar without loss of time and the entries in the Register duly completed.

Submission of the Taluk Monthly Returns.

9. After completion of the entries a copy of the register for the month will be forwarded by the Amildar *to the Deputy Commissioner* and to *the President of the District Board along with a review of the figures by hoblies* so as to reach them before the end of the month next after that to which the statistics relate.

Recording of the returns and registers.

10. The village returns for every month should be arranged according to hoblis and serial numbers and stitched and recorded in the Taluk Office. They will be preserved for a period of twelve years and then destroyed. The abstract register shall be permanently preserved.

Procedure in the Deputy Commissioner's Office.

11. The returns submitted by the Taluk Office should be scrutinised by the District Office, each Taluk return being seen and attested by the Sanitary Officer of the District before it is

And if there be no Sanitary Officer in the District Medical and Sanitary Officer, &c.

booked in the abstract register. The register will be maintained in the same manner as that in the Taluk Office, the figures being entered hobliwar and not villagewar. On the completion of the entries for each month, a copy of the register for the month showing totals by Taluks will be forwarded to the Sanitary Commissioner in Mysore so as to reach him before the 15th of the second month following that to which the returns relate. The District returns will be consolidated in the Sanitary Commissioner's Office for incorporation in the annual report on Sanitation.

Preparation of reviews.

12 The Sanitary Officer of the District and if there be no District Sanitary Officer, the District Medical and Sanitary Officer will prepare *every quarter a short memorandum* reviewing the vital statistics of the District for the quarter and submit copies thereof *to the Deputy Commissioner, the President of the District Board and the Sanitary Commissioner.* The memorandum should bring out the outstanding features of the state of public health in the District and indicate the measures for improvement.

Clerical errors.

13 The Registrar may correct any clerical or arithmetical error or a variance with the original information received in writing. Every clerical error found in the register of births or in the register of deaths shall be corrected by drawing a line on the original entry (but not so as to render it illegible) and writing the new entry above it, and the correction should be initialled and dated by the Registrar alone, if the error be discovered by him or both by the Registrar and the checking officer if the error be discovered by the latter. Provided that no entry shall be corrected under this rule more than a year after the entry is made except with the previous sanction of the Assistant Commissioner.

Registers and records to be open to inspection.

14. The registers and the accounts relating to fees recovered under Section 17 of the Regulation and the other records to be preserved or maintained by the registrar will be open to the inspection of any or all of the following persons :—

1) any Revenue Officer of and above the rank of a Shekdar ;
2) the Inspector of Panchayets ,
3) any Sanitary or Medical Officer employed by the Government ;
4 the President, Vice-President and Chief Officer of the District Board ;
(5) any Sanitary Inspector and the Chief Sanitary Inspector employed by the District Board and the Chairman of the Village Panchayet.

Grant of copies.

15. *The Registrar* shall give a certified extract from the registers kept by him under Section 17 of the Regulation. If he

is not in possession of the registers, the Amildar or the Deputy Amildar as the case may be in whose custody such registers are kept shall give and certify extracts therefrom under Section 17 of the Regulation.

The Shekdar and the Amildar or the Deputy Amildar to exercise supervision over registers.

16. The Shekdar and Amildar or Deputy Amildar shall constantly inspect the registers of births and deaths and other records, enquire in the villages what births and deaths have recently taken place, compare the registers to see if all are entered, supply omissions, instruct the Registrars as to the discharge of their duties, see that the outer-foils of the registers are regularly and punctually submitted to the Taluk or Sub-Taluk office and exercise a general supervision over the work of the Registrars. The registers shall be checked at least once in two months *by the Shekdar* and the entries verified should bear the initials of the checking officer.

Temporary arrangements during illness or absence of the Registrar.

17. In case the Registrar is unable for more than a week to attend to his duties on account of illness or other urgent cause, he shall report the fact to the Amildar who shall at once make temporary arrangements for the performance of the duties of the Registrar and any person thus temporarily appointed shall be held to be the Registrar for the purpose of the Regulation and of these rules. The Amildar shall report the arrangements to the Deputy Commissioner.

Registers to be finally deposited in the office of Amildar or Deputy Amildar.

18. Each register shall be retained in the custody of the Registrar for one month after it is closed and shall then be transferred to and deposited in the office of the Amildar or the Deputy Amildar as the case may be.

Returns to be submitted by the Registrar.

19. The Registrar shall, on the ~~last~~ first day of each month prepare and submit to the Amildar or the Deputy Amildar, as the case may be, of the previous month

(*a*) A list of births and deaths which have not been reported to him for registration with the names of the persons responsible for failure to give the required information; and

(*b*) a report of the particulars of the offences, if any committed under clauses (2) and (3) of Section 18 of the Regulation.

of the last month

By Order,
R. RANGA RAO,
Secretary to Government,
General Department.
